

# WORKTHEORY ERGONOMICS LLP

**Mumbai | Pune | Bangalore**

# Global Innovation. Local Execution.

We believe that a well-designed space is the foundation of a thriving business. Worktheory specializes in human-centric design, creating interiors that prioritize well-being and collaboration.

From acoustic privacy pods to ergonomic workstations, our solutions are designed to enhance focus, spark creativity, and turn ordinary environments into extraordinary experiences.

# THE GAP BETWEEN INTENT & REALITY

## THE DESIGN INTENT

Architects create spaces meant for health, focus, and collaboration.

## THE MARKET REALITY

These designs often get diluted by "equivalent" products that look the part but fail on performance.

## THE HUMAN IMPACT

Workspaces that look beautiful but compromise employee wellbeing.

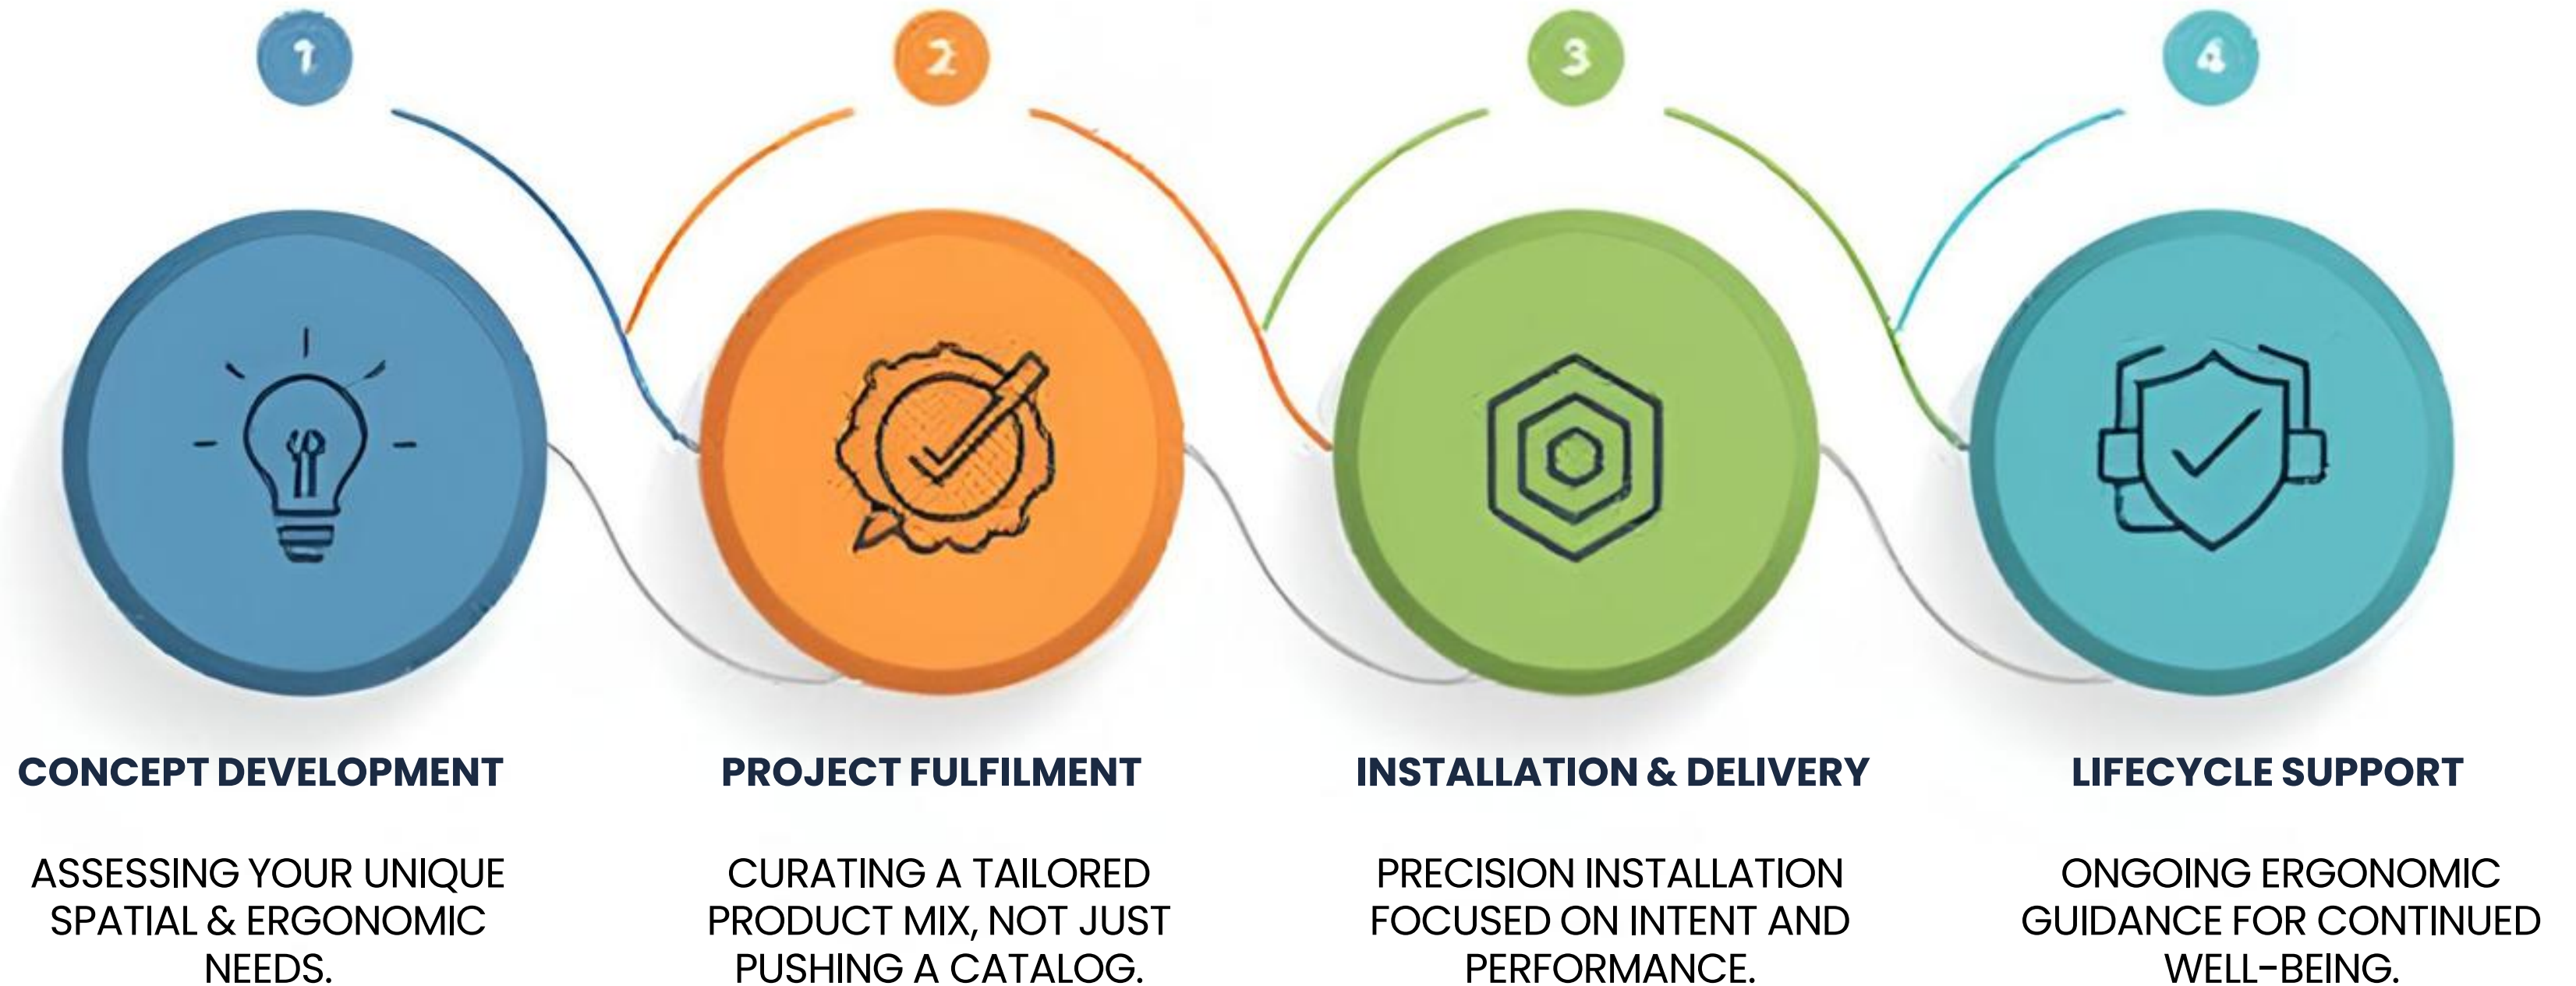

## OUR MISSION

To close the gap. We deliver Scientific Design with Local Agility.

## THE IMPULSE CHAIR

# SHAPING SPACES. ELEVATING PEOPLE

**We do not just supply products; we curate best-in-class solutions from global R&D hubs and engineer them for the Indian floor plate.**

# THE MINDS BEHIND THE THEORY
